Sir

Sub.: Establishment of Industry Sponsored lab Reg. – Req.

We introduce ourselves as Vemu Institute of Technology, P. Kothakota, near Pakala, A.P., started functioning from the academic year 2008-09 and known for its excellent record in academics and co-curricular activities. The College offers under graduate level in five areas of engineering (Civil, Mechanical, Electrical & Electronics, Electronics & Communication and Computer Science) as well M. Tech., MBA PG Programmes. The role of honor board is filled with toppers. Our students added technical colors to their wings and occupied in higher positions in renowned organizations.

Education has to play very important role in providing huge pool of skilled and knowledgeable, and industry ready Employees. The future success of industry depends on the growth of quality education, especially since Indian industry is competing globally in areas such as software and hardware electronics, automobiles, pharmaceutical, chemicals, engineering equipment etc.. However, the reality is that only a very small percentage of these students are readily employable and most lack industry specific skills. In order to bridge this gap between the academia and the industry and to ensure ready deployment in regular work streams, structured industry specific training is necessary. Also we need good support systems for skill development.

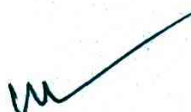

In the above background, Vemu Institute of Technology is focused towards the domains of Skill Development, to meet students Employability, Efficient and Effective; and I believe that the above can be implementable by collaborating with the industries/companies by developing industry sponsored/supported lab.

In this connection, the undersigned request your good office to look into the possibility of collaborating with our institute. Also I welcome you and/or your team to visit our institute to have a look at our facilities.

I look forward to collaborating with you on this work
