Description about the Event	**Powerful Strategies to Help You Succeed as a Programmer:** Working on some projects that have involved a fair amount of learning and working with a variety of different frameworks and languages. **There are 10 powerful Strategies to help you Succeed as a Programmer:** 1. Learn beyond the classroom 2. Practice like hell 3. Be passionate about creating solutions 4. Practice finding problems 5. Solve a problem on paper or a whiteboard first 6. Don't rush to Google answers. Try hard to solve problems until you can't 7. Once you master solving simple problems, start tackling more complex problems 8. Solve problems in your head 9. Look at difficult problems (in math or real life) as opportunities to learn and grow 10. Get a mentor or join a coding bootcamp **"Every Journey Begins with a Single Line of Code"** **"Never stop learning"**
