Department of Mechanical Engineering REPORT

Work Shop: A Three Days Work Shop On Hands On Experience On Engineering Work Shop Tools

Date: 07-03-2019 & 09-03-2019

Resource Person: Mr M Venkatesulu, Associate Professor, Department of ME, Vemu Institute of Technology, P. Kothakota.

Targeted staff: ME Technical staff

OBJECTIVE

Mechanical Engineering Workshop is a place where students & Technical staff acquire knowledge on the operation of various processes involved in manufacturing and production. The Workshop Practice course makes students and staff competent in handling practical work in engineering environment

Workshop technology is the type of technology which deals with different processes by which component of a machine or equipment are made. Its purpose is that the module unit is designed to equip the trainee with knowledge, skills, and attitudes that enable to perform basic workshop tasks.

Workshop is the core of learning about different Materials, equipment, tools and manufacturing practices that are observed in different manufacturing functions and operations. Workshop is also of prime importance when you want to gather about the practical knowledge

OUT COME

In this work shop we will Build thorough knowledge of various tools, machines, devices used in engineering practice.

Acquire thorough knowledge of carrying out various operations in mechanical engineering workshop

Utilize measuring skills gained in workshop practice

Acquire "Hands on" training and practice to students for use of various tools, devices and machines

Acquire skills in basic engineering practice for creating objects from raw materials ,Utilize practical skills in guiding works the trades.
