## REPORT ON ONE DAY WORKSHOP

**Title of the Programme:** Teaching, Learning & Research

**Resource Person:** Dr. K. Lakshmi Narayana, Founder Director, APSSDC, Rtd. IAS, Hyderabad.

**Venue:** VEMUAuditorium

**Date:** 08-06-2019

**Time:**9.30AM

Teaching is the methodology in which there is a priority to the needs of the learners, their experiences and feelings for making specific interventions to help them. On one hand, learning is acquisition of knowledge or skills through experience. It is a process that leads to a change for improved performance and future learning. On the other hand, research is a systematic investigation and careful consideration of study regarding a particular problem, materials and resources using scientific methods in order to establish facts and reach new conclusions. In a nutshell research-based learning is a teaching and learning concept that encourages students assume the role of researchers.

In view of research-based learning to make students researchers, A One-Day Workshop was organized by VEMU IT on 08-06-2019 at its auditorium. The topic for discourse was Teaching, Learning and Research. Dr. K.Lakshmi Narayana, Founder Director, APSSDC, Rtd. IAS, from Hyderabad was invited to be the Resource Person of this event. The workshop ensembled almost all the faculty members from various departments. The primary purpose of this workshop was to expand the existing body of knowledge by providing solutions to different problems in pedagogy while improving teaching and learning practices. The Resource Person discussed how teaching enhances the development of students, research, advances the development of new knowledge, and service, and contributes to the growth of nonacademic, professional, or college and university communities. He also enlightened the integral system of relation between teaching and research and explained how teaching as research involves the deliberate, systematic and reflective use of research methods to develop and implement teaching practices to advance the learning experiences and outcomes of students and teachers. The Workshop was enshrouded with active participants who made the session

very interactive with the Resource Person. One could not notice how time was spent in the session. On the whole the session gave tips to the participants regarding how teaching-as-research can be applied as a research approach to their teaching practice. The faculty learnt the importance of research in teaching -learning process and the strategies that could make students have access to resources on campus that are essential for high quality research-based learning.
