REPORT ON ONE DAY WORKSHOP

Title: EFFECTIVE USAGE OF ONLINE PLATFORMS FOR TEACHING

Resource Person: Prof. Vikram, Associate Professor, Dept. of CSE, SVCE, Tirupati.

DATE: 18-04-2020

TIME: 10.00AM

The inception of Online Mode of teaching during the pandemic became inevitable. This has made the educational institutions augment its usage to meet with the requirements of learners at various levels. A Three-Hour **Workshop on Effective Usage of Online Platforms for Teaching** was organized by VEMU IT via Zoom App video-conferencing virtual platform on 18-04-2020. Its criteria were to make the faculty successful in becoming technology enabled, get equipped with the latest trends of ICT tools and focus on the extensive use of online technology in teaching-learning process.

The Resource Person, Prof. M. ViKram, Associate Professor, Department of CSE from SVCE, Tirupati conducted the program for three hours via Zoom App video-conferencing. He began his speech emphasizing on the proper usage of online platforms to provide quality regulating standard of education. Listing out the skills of a digital educator, he analyzed how exactly a real time teaching could be done through you tube streaming, FB live, video conferencing, Google Groups, FB Posts, and Discussion Forums. Furthermore, he guided the participants on the navigation of MOOC platform, and pondered upon the application of digital tools, to assessment of teaching and learning. He also opined that the choice of ICT tools should be accordingly the purpose, content, learning objectives, target learners, and the availability of hardware and software at both ends. He illustrated how teachers can download images and audio files by avoiding plagiarism, and where safely they can upload content created by them for educational purposes. Ultimately, Vikram Sir raised issues that the teachers might face while teaching online. He also demonstrated how teachers should systematically pace e-content in an interactive manner suitable for the topic matter, age and level of schooling of the pupils. Ultimately, he also suggested that the platform used for online teaching should be safe enough in compatible to most of the ICT devices which are widely used for learning purposes.

In a nutshell, our Resource Person received overwhelming applause from the audience for his suggestions and prompt response to queries on OER (Open Educational Resources) for capacity building of students and engaging students for more online classes. The session came to an end with a Vote of Thanks by Dr. U. Sasi Kala, Associate Professor and HOD H&S, Dept. of H&S. The workshop had been a rich learning experience for all the participants, who also requested for more such capacity development workshops in future. The participants learnt the strategies on the utilization of online platforms and got an idea on how to stick to one platform, know their subjects well, facilitate contact, make use of templates, set effective communicative goals and incorporate techniques for self-study with the help of ICT tools.
