Report on National constitution Day

Date of Event: 26.11.2020

Place: MBA Seminar Hall, VEMU IT.

Constitution Day also known as '**Samvidhan Divas**', is celebrated in our country on 26th November every year to commemorate the adoption of the Constitution of India. On 26th November 1949, the Constituent Assembly of India adopted the Constitution of India, which came into effect from 26th January 1950. In view of National Constitutional Day, NSS unit, Vemu Institute of Technology, organized a program on 26.11.2020 to aware our students about Indian constitution. The program has been started at 2 PM on 26.11.2020. Head of departments from various departments, NSS PO and students from various departments participated in this event.

The HODs and NSS PO explained about democracy and important of proper constitution and its impact on present and future generation. Then all together participated in "Integrity pledge".

"WE, THE PEOPLE OF INDIA, having solemnly resolved to constitute India into a SOVEREIGN SOCIALIST SECULAR DEMOCRATIC REPUBLIC and to secure to all its citizens

JUSTICE, social, economic and political;

LIBERTY of thought, expression, belief, faith and worship;

EQUALITY of status and of opportunity;

and to promote among them all

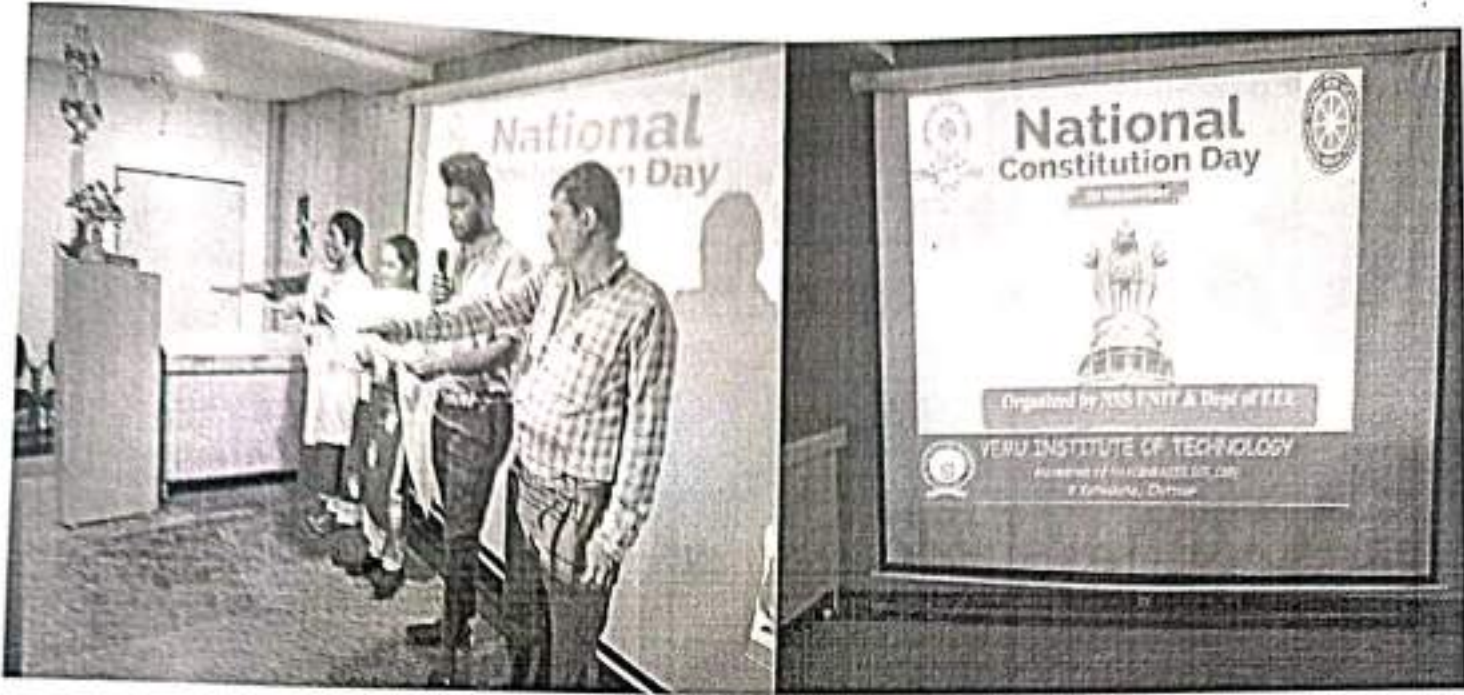

FRATERNITY assuring the dignity of the individual and the unity and integrity of the Nation"

91. An aeroplane flies along the sides of an equilateral triangle with speed of 300 km/hr, 200 km/hr, 240 km/hr. The average speed of the plane while flying around the triangle is

(a) 250 km/hr

(b) 275 km/hr

(c) 200 km/hr

(d) 240 km/hr

$$A.S = \frac{D + D + D}{\frac{D}{300} + \frac{D}{200} + \frac{D}{240}} = 240 \text{ km/hr}$$

92. 6 interns and 2 managers working together can do five times the work that an intern and a manager can do. Calculate the ratio of the working capacities of an intern and a manager?

(a) 3:1

(b) 1:3

(c) 2:1

(d) 3:2

(e) 2:5

→ I = 3M

(a) $D = \text{LCM}(300, 200, 240) = 1200$

$$A.S = \frac{(1200) \times 3}{\frac{1200}{300} + \frac{1200}{200} + \frac{1200}{240}} = 240 \text{ km/hr}$$

$$\frac{5}{1} = \frac{3}{1}$$

Event Type	External Training program
Title of the Event	TCS-NINJA Company Specific Training
Dates	20-10-2020 To 23-10-2020
Event Duration	4 Days(24 Hours)
Resource Persons	COIGN Consultants Pvt.ltd
Faculty Coordinator	Mr.M Mallikarjun, Coordinator-EEE Mr. M Thulasiram, Coordinator-ECE Mr.K Dhananjay, Coordinator-CSE
Venue	Online Mode
Benefited Students	Eligible Students for TCS-NINJA Training (CSE/EEE/ECE)
Description about the Event	<p>The TCS Ninja NQT exam is divided into 4 groups: 1st group - English, 2nd Group - Quantitative Aptitude, 3rd Group - Programming Concepts, and 4th group - Coding. The flow of the entire exam will be from the 1st group to the 4th group. Once a student moves from one group to another, you can't go back to the previous group. For example, once you have moved from English to Quantitative Aptitude, then you can't go back to the English group. Moreover, the time allotted to each group is fixed. If a student finishes a group in less than the allotted time, then the remaining time will not be carried forward to the next section or group. You will also have to click submit at the end of each section to confirm your answer choices.</p> <p>1) English 1st Group (15Q in 10 minutes) - This section contains Fill in the Blanks (FIB) type questions. Each question carries negative marking. A small passage will be given with blank spaces in between the passage. A student can answer each FUB type question by selecting an option in the drop-down menu of each blank.</p> <p>2) Quantitative Aptitude 2nd Group (15Q in 30 Minutes) - This section has now been divided into 2 parts, namely Standard and Advanced. The Standard part contains 20 questions whereas the Advanced part contains 10 questions. The time duration for this part of the exam is 40 minutes. This section has 2 different question types: Multiple Choice Questions (MCQ) and Fill Up the Blanks (FUB). The MCQ type questions carry negative marking whereas FUB questions do NOT have any negative marking.</p> <p>Chapters to be covered: Number system, HCF & LCM, Time, Speed & Distance, Permutation & Combination, Profit & Loss, Functions, Blood Relations, Algebra, Averages, Mixtures & Allegations, Time & Work, Percentages, Geometry, Series & Progression, Equations, Clocks & Calendar.</p> <p>3) Programming Concepts 3rd Group (10Q in 20 minutes) This section has now been divided into 2 parts called Standard and Advanced. The Standard part has 7 questions whereas the Advanced part has 3 questions. The questions in this section are of 2 types: Multiple Choice Questions (MCQ) and Fill Up the Blank (FUB). The MCQ type questions</p>

have negative marking whereas FUB type questions do not have any marking. The syllabus for this section is mainly divided into 7 broad topics

- 1) C
- 2) Loops
- 3) Arrays
- 4) Command Line Programming (Theoretical and Coding Questions)
- 5) Libraries
- 6) File Handling
- 7) Variables and Registers

Also check our blog for previous

4) Coding 4th Group (1Q in 30 minutes) -

In this section, there is no command line programming. This section will have 1 coding question which has to be solved in 30 minutes.

- A student can write a program in any one of the 5 languages provided by TCS. The languages provided by TCS are C, C++, Java, Perl, and Python.
- If a student wants to write the program in java, then the class name must be mentioned as Maze.
- There is no limit to the number of times a student can compile a program.

The function/method `reverse`: for each element in the input array `arr`, a counter is incremented if the bit `arr[i]` is same as `arr[i-1]`. Then the resultant counter value is added to the output array to store the result. If the bit `arr[i]` and `arr[i-1]` are different, then 0 is added to output array. For the first bit in the input array, assume its previous bit to be 0. For example if `arr` is `{0,1,0,1,1,0}`, then it should print `1 0 0 2 0 3 4 0`. It accepts two arguments-`size` and an `arr` of integers. Each element represents a bit 0 or 1. It compiles successfully but fails to print the desirable result. Fix the code.

```

int reverse(int size, int *arr)
{
    int result;
    int res[size];
    int count=0;
    for(int i=0; i<size; i++)
    {
        if(i==0)
            result=(arr[i]==0);
        else
            result=(arr[i]==arr[i-1]);
        res[i]=(result)?count:0;
        count++;
    }
    for(int i=0; i<size; i++)
        printf("%d ", res[i]);
}

int main()
{
    int size;
    int arr[10];
    reverse(size, arr);
}
    
```

Description about the Event	<p>Resume Building: Obvious it may be a resume is a document that showcases your experience, profile, and skills. The purpose of writing one is to get invited to job interviews. Ultimately, putting it together is an important first step to getting a great job.</p> <p>Resumes are used across most industries and are relatively short at just one or two pages long. That's because resumes aren't meant to include every detail of your past experience. Your resume should be tailored and updated based on the specifics of each job to which you apply. Irrelevant duties from past jobs can be removed to save space and drawn more attention to your most applicable skills and accomplishments.</p> <p>How To Write A Resume:</p> <ol style="list-style-type: none"> 1. Pick a resume format with the sections you need 2. Always include contact information, work experience, and education 3. Use traditional headings for maximum compatibility 4. Include applicable skills directly from the job description 5. Replace basic job duties with impactful accomplishments 6. Don't include an outdated objective statement or references section 7. Proofread and double-check what you've written 8. Save the resume as a DOCX file (preferred) or PDF. <p>TCS Interview Process: TCS Interview Process consists of Technical Interview and HR Interview. Following are the details of each phase:</p> <p>Technical Interview: Questions related to specific technical fields are asked in this round. Questions may be based on specific knowledge about the company's technical activities; understanding of the technical work required to be completed as part of the job applied for or may enquire candidates to solve actual technical problems that they would be likely to face if employed.</p> <p>HR Interview: Final step to select a candidate as an employee is Interview as it helps to determine a candidate's personality. Questions can be of wide range starting from your introduction, Qualification, Experience, Industry specific experience, Courses done, your strengths and weaknesses, salary expectations, friends, family etc. Clearing Oracle Recruitment Process</p>

Description about the Event	<p>Resume Building: Obvious it may be a resume is a document that showcases your experience, profile, and skills. The purpose of writing one is to get invited to job interviews. Ultimately, putting it together is an important first step to getting a great job. Resumes are used across most industries and are relatively short at just one or two pages long. That's because resumes aren't meant to include every detail of your past experience. Your resume should be tailored and updated based on the specifics of each job to which you apply. Irrelevant duties from past jobs can be removed to save space and drawn more attention to your most applicable skills and accomplishments.</p> <p>How To Write A Resume:</p> <ol style="list-style-type: none"> 1. Pick a resume format with the sections you need 2. Always include contact information, work experience, and education 3. Use traditional headings for maximum compatibility 4. Include applicable skills directly from the job description 5. Replace basic job duties with impactful accomplishments 6. Don't include an outdated objective statement or references section 7. Proofread and double-check what you've written 8. Save the resume as a DOCX file (preferred) or PDF. <p>TCS Interview Process: TCS Interview Process consists of Technical Interview and HR Interview. Following are the details of each phase:</p> <p>Technical Interview: Questions related to specific technical fields are asked in this round. Questions may be based on specific knowledge about the company's technical activities; understanding of the technical work required to be completed as part of the job applied for or may enquire candidates to solve actual technical problems that they would be likely to face if employed.</p> <p>HR Interview: Final step to select a candidate as an employee is Interview as it helps to determine a candidate's personality. Questions can be of wide range starting from your introduction, Qualification, Experience, Industry specific experience, Courses done, your strengths and weaknesses, salary expectations, friends, family etc. Clearing Oracle Recruitment Process</p>

requires well-planned preparation with right guidance and motivation.

Description about the Event	<p>Resume Building: Obvious it may be a resume is a document that showcases your experience, profile, and skills. The purpose of writing one is to get invited to job interviews. Ultimately, putting it together is an important first step to getting a great job. Resumes are used across most industries and are relatively short at just one or two pages long. That's because resumes aren't meant to include every detail of your past experience. Your resume should be tailored and updated based on the specifics of each job to which you apply. Irrelevant duties from past jobs can be removed to save space and draw more attention to your most applicable skills and accomplishments.</p> <p>How To Write A Resume:</p> <ol style="list-style-type: none"> 1. Pick a resume format with the sections you need 2. Always include contact information, work experience, and education 3. Use traditional headings for maximum compatibility 4. Include applicable skills directly from the job description 5. Replace basic job duties with impactful accomplishments 6. Don't include an outdated objective statement or references section 7. Proofread and double-check what you've written 8. Save the resume as a DOCX file (preferred) or PDF. <p>CTS Interview Process: CTS Interview Process consists of Technical Interview and HR Interview. Following are the details of each phase:</p> <p>Technical Interview: Questions related to specific technical fields are asked in this round. Questions may be based on specific knowledge about the company's technical activities; understanding of the technical work required to be completed as part of the job applied for or may enquire candidates to solve actual technical problems that they would be likely to face if employed.</p> <p>HR Interview: Final step to select a candidate as an employee is Interview as it helps to determine a candidate's personality. Questions can be of wide range starting from your introduction, Qualification, Experience, Industry specific experience, Courses done, your strengths and weaknesses, salary expectations, friends, family etc. Clearing Oracle Recruitment Process</p>

Training & Placement Department Report

Event Type	External Training Program
Title of the Event	Online Course on C Programming in association with Code Tantra
Dates	10.05.2021 to 26.06.2021
Event Duration	40 Days
Resource Persons	Code Tantra Online Platform
Faculty Coordinator	Mr. M Mallikarjun, Coordinator – EEE Mr. M Thulasiram, Coordinator – ECE Mr. K Dhananjay, Coordinator – CSE Mr. P Bhaskara, Coordinator – Mechanical Mr. B Ramu, Coordinator – Civil
Venue	Online Training
Benefited Students	III Year B.Tech CSE, ECE, EEE & Mechanical, Civil (2018-2022 Batch)
Description about the Event	<p>Generic Training programme was conducted for III Year B.Tech CSE, ECE, EEE Mechanical, Civil (2018-2022 Batch) students on C Programming in association with Code Tantra Online Platform.</p> <p>The main objective of this training is to train the students to excel their programming skills and to speed up the ability in solving Programming aptitude Questions on the point of interview.</p> <p>Following are the topics that are covered in the CRT program: Introduction to c programming, Tokens, I/O Statements, Selection Control Statements, Looping Control Statements, Arrays, Strings Functions, Pointers , User defined Data types and Files.</p> <p>Each student in CodeTantra Online Platform taken lessons and practiced the coding programs and MCQs every day for 90 minutes. Total 60 hours practice was given in CodeTantra Platform for each and every student. This training helped students to develop the Coding skills and they learnt different methodologies to solve programming questions in faster manner.</p>

C - Language features

In English, if one wants to greet someone, one would say "Hello".

Similarly in Spanish one would say "Hola".

If we want a computer to display a greeting message on the screen, we will have to provide instructions to the computer using a computer programming language.

For example if we want to display "Hello" using C as the programming language, we will have to provide instructions as per C programming language's grammar and vocabulary as given below:

```
#include <stdio.h>
void main() {
    printf("Hello");
}
```

The text given above, is called source code or simply code. Since it is written in C, it is also called C code.

The code given above represents a simple C program which prints "Hello".

We shall learn more details regarding the above-given program in later sections.
